

SMARTLEADS

EFFICIENTLY CREATE PIPELINE WITH WARM LEADS IN PRIORITY ACCOUNTS

To meet your sales and marketing goals you need people hitting the phones and building the top of the pipeline every day. With BAO's performance-based SmartLeads service, you can give your inside sales teams warm introductions to top prospects.

Functioning as an extension of your sales organization, our Lead Development Reps (LDRs) partner with your team to generate leads. It's 100% phone based—our team conducts live conversations to identify key decision-makers and present your value proposition. When a prospect expresses interest in your solution, we send an email introducing your SDR or BDR to the prospect.

SmartLeads takes the heavy lifting of prospecting off your SDRs' plates, so they can focus on kicking off the sales process, presenting your solution, and turning those leads into pipeline opportunities. This enables your reps to focus on warm prospecting, not cold calling.
